

Ipiutaq, d.15.03.2011,

We are very grateful and honored to receive the GrønlandsBankens Erhvervsfonds prize as entrepreneurs of the year (*som årets iværksættere*).

Ipiutaq guest farm started as a dream in 2002. From that time, we have always believed that it would be possible to develop this very isolated place to show how Greenland can be open to the world and other cultures, through his own natural and cultural resources.

After a few years of work and some "mad gambles" (*vild væddemål*), this prize is a very beautiful surprise for us and will add some more energy to continue with the development of our project.

Ipiutaq guest farm is a whole concept based on agro-tourism, with local ingredients, a french savoir-faire, the beauty of the nature and our own graphic design.

Nu om dage (*today*), vores projekt er at udvikle gården i Ilua dalen bag Ipiutaq, til begge landbrug og turisme, med opdyrkning af nye marker til udviklingen af landbrugsdelen af firmaet, samt mulighed til at tilbyde et unikt fiskeri oplevelse til turister fra hele verden.

We still believe in this dream and we will work to fulfill it.
Thank you very much!

Agathe Devisme & Kalista Poulsen
